

Drywall Recycling Locations

(3/04/09)

The owners or operators of the listed drywall recycling operations have notified the Department of Environmental Quality (DEQ) of their intention to operate in accordance with the drywall recycling exemption (Exemption) located at http://www.michigan.gov/documents/deq/deq-whmd-swp-Exemption-GypsumDryWall_247538_7.pdf . The Exemption was developed under R 299.4119 of Part 115, Solid Waste Management, of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended. The inclusion or exclusion of a drywall recycling operation from this list does not reflect a determination by the DEQ on the compliance status of the drywall recycling operation under Part 115 or any other state or federal law, rule, or regulation. The DEQ does not recommend or endorse any drywall recycling operation and is providing this list to assist generators with identifying potential options for managing drywall they may generate. It is the responsibility of the generator to ensure drywall is delivered to a qualified drywall recycling facility. The DEQ maintains a Waste Data System (WDS) that contains information related to compliance activity at various types of facilities. Click on the WDS numbers below to get information related to the drywall recycling locations.

Uni-Dig INC.
Delores Michaels
21600 Quinn Road
Clinton Township, MI 48035
586-791-4010
